

## Our Partners – Universities and Universities of Applied Sciences

- University of Freiburg im Breisgau
- Baden-Württemberg Foundation
- University of Tübingen
- Karlsruhe Institute of Technology (KIT)
- University of Heidelberg
- RWTH Aachen University
- University of Hohenheim
- University of Konstanz
- University of Mannheim
- University of Stuttgart
- University of Ulm
- Aalen University of Applied Sciences
- Albstadt-Sigmaringen University of Applied Sciences
- Biberach University of Applied Sciences
- Esslingen University of Applied Sciences
- Furtwangen University of Applied Sciences –  
Computer Science, Technology, Economics, Media
- Heilbronn University of Applied Sciences – Technology,  
Economics, Computer Science
- Karlsruhe University of Applied Sciences – Technology  
and Economics
- Konstanz University of Applied Sciences – Technology,  
Economics and Design
- Mannheim University of Applied Sciences
- Offenburg University of Applied Sciences – Technology,  
Economics and Media
- Pforzheim University of Applied Sciences – Design,  
Technology, Economics and Law
- Ravensburg-Weingarten University of Applied Sciences –  
Technology, Economics, Social Work
- Reutlingen University of Applied Sciences
- Stuttgart Media University
- Stuttgart University of Applied Sciences
- Ulm University of Applied Sciences

der Baden-Württembergischen  
Hochschulen GmbH

Where innovation  
creates value

- Consulting
- IP Management
- Technology Transfer
- IP Exploitation

## TLB – Your competent partner for invention and patent management

### Consulting Services

We support universities of applied sciences and universities in the field of inventions, patenting and exploitation strategies, participations and partnerships.

### IP-Management

We evaluate inventions in terms of patentability and develop patenting strategies tailored to the market. We accompany our clients through every stage of patenting, resulting in strong and enforceable intellectual property rights.

### Technology transfer and IP exploitation

Based on our extensive network of industrial partners, our contacts to relevant business partners and years of experience in international technology transfer. We develop tailor-made commercialization strategies for your patented innovation. In addition, we initiate and negotiate license and cooperation agreements with industry partners and take care of your contract and receivable management.

## TLB – Your partner for mechanical engineering, technology and optics

TLB partners with numerous leading universities and universities of applied sciences in Baden-Württemberg and RWTH Aachen University in North Rhine-Westphalia.

Our experienced innovation managers advise inventors and help exploit innovations from promising areas such as

- Mechanical Engineering
- Logistics
- Technical Optics
- Laser Technology
- Civil Engineering
- Automotive
- Information- and Communication Technology
- Materials Engineering

## TLB – Your partner for new energy and electric mobility technologies

Sustainability and new energy technologies are issues of key importance to the future. TLB advises the scientific community that works on exciting research projects in the following areas:

- Photovoltaics
- Elektric Mobility
- Elektrical Engineering
- Energy Technology
- Solar Technology
- Environmental Engineering
- Process Engineering

## TLB – Your partner for life science

TLB's innovation specialists manage the technology transfer and patenting strategies in the most diverse areas of life science:

- Bio Technology
- Chemistry
- Nutrition
- Agriculture
- Medicine
- Pharmaceuticals
- Medical Technology
